Community Resource Guide | Substance Abuse and Addiction Resource Network

Indiana 211 | Call or visit online www.connect2help211.org | Facilitates connections between people who need human services and those who provide them.

This is a comprehensive resource guide for substance abuse and addiction services. This guide is segmented by service provided, then by county where the service is provided. The resource guide list services from groups, here locally in Logansport to Inpatient Treatments across the state. Please note that these resources are as up to date as the revision date, and may be subject to change.

Table of Contents :

Cass and Surrounding Counties Support Groups & Resources | 3

Medication-Assisted Treatment Providers | 13

Outpatient Treatment Providers | 22

Inpatient Treatment Centers | 42

Inpatient and Outpatient Treatment Centers | 60

Opioid Treatment Centers | 66

Drug-Disposal Drop Offs, Syringe Exchange Program, & Online Resources | 70

Recovery Navigation

Four County Counseling Center

Cass county offers a full time Recovery Navigator whose role is to triage any need related to substance use that an individual may have. Linkage may include, but is not limited to, treatment, housing , employment, support groups, health insurance, etc.

Please call Jae Miller, Recovery Navigator, directly to begin at 574-721-3345.

The Recovery Navigator also does an Orientation every Wednesday at noon at our Michigan Avenue location. No need to schedule or be a client to attend Orientation. Please come to find out more information about our services and about benefits eligibility.

Monday-Friday | 8:00 AM—4:00 PM

Naloxone is a medication approved by the Food and Drug Administration (FDA) to prevent overdose by opioids such as heroin, morphine, and oxycodone. It blocks opioid receptor sites, reversing the toxic effects of the overdose. Naloxone is administered when a patient is showing signs of opioid overdose. The medication can be given by intranasal spray, intramuscular (into the muscle), subcutaneous (under the skin), or intravenous injection.
