For all Breast Imaging Exams / Procedures

- **These exams must be scheduled.**
- Do not use powder, deodorant, or lotion on your breasts or underarms on the day of the exam. Cleansing wipes and deodorant are available for your use.
- Children are not allowed in the Breast Center. Please bring someone to stay with your children during the exam.

Screening Mammogram

- If your most recent mammogram was performed at another facility, please inform scheduling of the location so that those images can be available the day of your exam.
- You may be required to sign a release of information to have the exams released. If previous exams are not available at the time of your exam, the reading will be delayed until they are available. **If possible, please bring the films or CD with you.**
- Please allow 30 minutes for this visit.

Diagnostic Mammogram

- We will need an order from your doctor before we can perform a diagnostic exam or imaging-guided procedure.
- Please allow 30—45 minutes for this visit.

Breast Ultrasound—Guided Biopsy

- We will need an order from your doctor before we can perform a diagnostic exam or imaging-guided procedure.
- One of our certified sonographers will discuss the procedure with you in detail at the time of your procedure.
- Please allow one hour for this visit.
